FROM OUR NEW YORK CORRESPONDENT

New Yong, Monday, October 13. We are rejoicing in a soft, warm rain, after weeks and months of almost absolute drought.-Happily, on inexlaustible Croton has preserved the city from any inconvenience from the want of water, but the country round, in its vegetation -the inhabituate and the cattle, as to the wells and streams—and the mills dependent upon water, have been put to great simits. The fall ploughing for winter grain has of necessity been postponed far beyond the accustomed period, because the ground was so hard baked as to defy the ordinary force in use; and now when the surface will b softened, it is late for the sowing. But the full pastures will yet benefit much, and all the millwheels will whirl once more mertily along the

What meant the Scatinel in saying, the other day, that "the British Tariff of 1846, which was profered as a boon to the Agricultural interests, proves its worst enemy?"

How was it ever made a British tariff? How was it profered as a boon to the agricultural interests? And how, and when, and where, has it proved its worst enemy?—Commercial.

We have not heretofore had time or space to answer the above questions; and indeed so far as the first two are concerned, they scarcely require in answer. The matter, however, being one of andeavor to devote some attention to it.

To the question—" what mean't "the Sentine!,

The Commercial enquires "how it was ever made a British Tariff?". We answer that the deed, so injurious to the Agricultural, Commercial, and Manufacturing interests of this country, was done by men who have for many years been load in their professions of regard for American Industry-by men who lay an exclusive claim to name which would indicate that they were the especial friends of the people—by men who fought the campaign of 1844 (in Pennsylvania) under the bunner of "Polk, Dallas and the Tariff by 42"-so certain were they that the sturdy

It was an evil day when our American politicians listened to their permasions—it was a shameful spectacle, that one which was seen in the rooms of the very Capite itself, of English manufacturers, invited by Se cretary Walker and his coadjutors, displaying their goods, and saying -"Admit us freely with these articles, and send freely your breadstuffs-

we will take them all, and pay you well." It was in vain that the true friends of hom industry struggled bravely against numbers. I was in vain that they urged that we wanted home market-that there were hundreds of thou sands of Americans ready to make the same of nation at large, and they will never consent that them over here to work, because then we could feed and clothe them—and that our farmers could not afford to pay the transportation on their produce across the ocean eastward, and upon the goods across the ocean westward. It was in vaithat they implored the advocates of the dreaded change to exercise a little common sense in th matter—there being not one of the latter wh would not readily acknowledge the benefit accru ing to a farming community from the establish ent of a large manufactory at their doors, furn ishing a near market for produce, and bringin the buyer and seller together.

As a last appeal, the American party asked that, at least, the proposed new tariff should be arranged on the principle of home valuation, a that the country and the people might not b cheated by false invoices.

It was all in vain. The tariff of '46 was push

JUMPING JIM CROW!

The Sheboygan Lake Journal was among the first Democratic papers to endorse, very warmly, the independent nomination of William H. Lorn for the office of State Superintendent. The Jourand took pleasure in bearing its personal testimony to Mr. Loan's eminent fitness for the office, n this wise :

STATE SUPERINTENDENT.—A majority of papers in this State have expressed a very decided preference for Wm. H. Lord, Esq., of Milwaukee, for this responsible office. We have been acquainted with Mr. Lord nearly ever since we came into the State, and know him to be rediqualified, in every respect.—Sheboygm Luke Journal Sep. 10.

This was the Journal's unbiassed, unsolicited and honest declaration in regard to Mr. Lond's qualifications. But the Hunker convention, in violation of party precedents and usages, saw fit especial interest to our Western farmers, we will to nominate Mr. Lade for State Superintendent, Whereupon the Journal, not content with simply giving its support, as a party organ, to Mr Land, thinks it necessary to abuse and defame Mr. Lone, and stuttifies itself as follows:

"But with Mr. Loan, we are well acquainted having been for a short time connected with him in business; and we know that, in energy and stability of mind, he is sadly deficient."

A reliable organ surely, which thus blows hot and cold in the same breath! We doubt whether even the Wisconsin could turn a shorter corner, or the Commercial throw a more complete

The Depere Advertiser, the organ of the party in Ontagamie County, still refuses to be whipped into the traces to support Mr. UPHAM for Governor. The last number of that paper says;

nor. The last number of that paper says;

The action of the Democratic State Convention has left the Democratic party in a very disagreeable predicament. With a nomine for Governor unworthy of its support, it is left without a pilot to guide its course amid the perils which it is obliged to encounter. Its party leaders having shown themselves unworthy of its confidence, its only resource is to take the matter into its own bunds and select its over, condidates at the coming election. The Lake Journal, "demogratic," published four ava afterwards, neither mentions the Convention or hoists the name of the candidate! Mr. E. W Baldwin, loco, is also in the field, and we notice that Mr. Solomon Lowbarn is also upus an independent candidate.

Mr. H. C. HORART has obtained the nomination for Assembly in the other district. It remains to be seen whether the people of the district will elect to the Legislature, a man who is opposed to Banks of all sorts and as implicated in obtaining School monies on very fanciful security.

THE ELECTIONS.—We had hoped to present ful cturns of the elections last week, but have nothing in addition to our first meagre report except the following:

A Tare Union White.-The enemies of Mr. J. ohnson, Whig and Union Candidate for Con gress in Georgia, posted affidavits charging him with having maintained that the North did right in insisting on the exclusion of Slavery from the New Territories, and with having lately sold his property in Georgia in order to remove to a Free tate, expressly on the ground that he would not arbiect his children to the evils and contaminations of Slavery.

Mr. Johnson did not contradict these state nents, but he is nevertheless triumphantly elected "Go THE TICKET,"-Mr. "N. W. A. Van Catz Smallenberg"—a Buffalo corrrespondent of the Dutch paper at Sheboygan, sends a long communication giving the Hollanders in that region the following advice:

Jefferson Davis has not declined the no mination of the Secessionists for Governor of Mississippi. Both he and Gen. Foote have resigned their Senatorial seats, and the Governor will appoint up one to fill the vacancies.

Messes, Editora: I herewith send you a copy of a letter which something like two weeks since, I forwarded to the Hon D. A. J. Upham, and to which, as yet, I have received no reply. At the same time as the answer to each question involved matter of vital importance to every voter in my district, a well as throughout the State, I sent a copy of i to the Editor of the Wisconsin, with a reques that it should be published in order that the realshould be made in the manner best calculated t reach every man whose interest it was to affect.-The Editor of that paper, after a delay that to me vas unaccountable, flatly refused to publish it. ssent to the insertion. I do not choose to delay! any longer, and therefore send it to you with the equest that it may find a place in your celumns.

I would merely add that I wrote the letter, of which the subjoined is a copy, in good faith, and because I did not know what his position was upon the questions now agitating the people of our State; and I certainly thought that he could have no hesitation in declaring what his opinions were. To the numerous inquiries addressed me for I could only make the same answer in each instance. I did not know what his principles were; and, because I did not, I asked him the questions contained in the following copy, as either I nor the Densocrats in the vicinity where I reside will vote for a man who has not committed himself upon matters we deem of so great im portance in the coming election. I presume the answers Mr. Upham will give will be perfectly satisfactory to us, but we must have them in order to be satisfied. Yours respectfully, E. W. EDGERTON.

We have not learned the precise points in question. His Honor's ruling was decidedly in the plaintiff's favor, but the Jury gave a verdict for the defendant, sustaining the title. We understand that a motion is pending

The United States vs. John Armstrong. Thi was an indictment found against the defendant forcutting timber upon the public lands, and the for cutting timber upon the public lands, and the case was given to the jury on Saturday evening. He Honor took occasion, in his charge, to refer to the alleged unpopularity of the law under which the case came un, and to inculente upon the which the case came up, and to inculcate upon the Jury the necessity of strict obedience to all laws, while they are the laws of the land, as the only safeguard against anarchy, and the only means of preserving the integrity of our institutions.

LADIES BUNEVOLENT SOCIETY,-Our citizens will e interested in reading the Report of this Society for the past year, and will doubtless be ready to respond liberally to its calls for aid, to enable them to relieve the destitute during the inclemencies of the coming winter. They certainly need no assurance of ours that whatever they contribute will be judiciously and worthily bestowed, and that whatever bread they thus "cast upon the waters" will certainly, in the arrangements of Providence, "return again after many days." We espeak for the Society the willing gifts of willing hearts and hands.

DE FESSET'S COMPLIMENTARY CONCERT.-WE trust that our music-loving readers will all bear in mind that the Complimentary Concert to Dr. Fra-ser, is to take place on Wednesday evening next. The Programme, which is one of rare attractions, will be found in our advertising columns. It will callst the best Musical talent of our city, and is worthy of as large an audience as the Hall can

NEW STORE,-Messis: HAMLIS & WEBSTER, old friends of the public, have taken possession of thei ew store in Ludinoron's handsome brick block and have stocked it with abundance of desirable Groceries and Housekeeping goods. They are now on hand to serve their old customers and secure new ones.

COLUMBUS INS. Co.-A rumor has been in cir culation for some days that this well known com-pany had failed. On enquiry of the agent here, we learn that letters have been received from the Presdent of the Co., stating that such was not the case but that there was a temporary difficulty, the nature or cause of which was not fully explained, but which, it is supposed, would be soon removed.

More New Goods.-J. L. Pierce, at the corner of Spring and West Water Sts, has a "reminder in our paper to-day, to his old customers, and an nvitation to the public generally, to call and ex amine his new fall and winter goods. The We-Side makes a great display this fall.

NEW BOOKS.—Messis. Annold & Wilson. No. 21 Wisconsin Street, have just received a lot l of new publications and among them some very ice story books for children and text-books for

Mobe Stings from the Nobthern Musquito That great of a paper, as the Wisconsin styles the Depere Advertiser, keeps up a most annoying fire upon the Don and his Hunker supporters. It snaps ts fingers at the Commercial and don't seem? mind the killingscate of that Druidical organ a bit. Here are some "specimen bricks" from its last

It is also worthy of note that the history of the Don's career, as Mayor, which we published sometime since, has not been denied by any paper in the State. Papers friendly to the Don, sometime since, has not been denied by any pa-per in the State. Papers friendly to the Don, have not even attempted to apologize for his defi-ciencies. The Milwaukee Commercial has con-tinued to call us hard names, which were equally disgraceful to that paper, as they were unworthy of any answer from us.

We invite the attention of our readers to "a voice from Menasha," in another column. It indicates the feelings of the people in regard to Up-ham. Oh, for an Independent Candidate!—Ad-

serties. So much for the insignificant velping of the Depere Advertiser, about which the whig papers had so much to say.—Sheb. Lake Jour.

But when you read the card of the 28 Democrats of Depere, supporting us, won't you howl the'!—Depere Advertiser.

Kossuth at Genoa. -- While the Mississipp was lying at Genos, Kossuth requested leave o the Sardinian Government to visit Piedmon ground. The Government replied that they did not wish to oppose the slightest obstacle to his stay, but that in the present state of the relations with neighboring powers, much inconvenience might result from such permission; but would leave it to his discretion to decide whether under uch circumstances Kossuli ought to invoke the ospitality of the Piedmontese. Kossuth did no

SENATORIAL NOMINATION.—The democratic Convention for the 18th Senate District (3d, 4th and 5th Wards of the city and the four South towns of the county) nominated on Saturday the present incumbent, Dencan C. Reen, for re-elecion. Mr. Reen has made a faithful and efficient Senator, and was fairly entitled to this compliment at the hands of his party friends.

Assembly Nommation.—The Democratic District Convention for the Towns of Milwankee Granville and Wauwatosa, nominated William BECK, of Granville, for the Assembly, by one ma jority over JESPER VLIET, of Milwankee. As Angunest for Railroads,-The census

Denkirks, the terminus of the New York and Eric Railroad, has just been completed. The population now is 3,500. Six months ago there we 500. The completion of the Railroad has given Dunkirk a wooderful start ahead. Dane Co.-South East District.-The Whigs.

this Assembly district have selected Hiran H.

Grigs, of Dunkirk, as their candidate. Mr. Gile-

is a good Whig, and a popular man, and ought to

be elected. Old Dane ought to send a clean delegation this fall. RAIL ROAD IROS. -- We are informed that a cargo of 625 tons of railroad iron, designed for York City, from England, and will be immediately shipped for this place, - Fond du Lac Journal

New Block.—A new brick block is soon to be erected in this village, on the corner of Eighth and Center streets. The building will be three stories high, sixty feet deep and ninety feet front. The first floor to be occupied for m reantile purposes—second, offices—third, a public hall. The materials are now being delivered upon the ground.—Sheboygan Lake Jour.

Fire at Racine.—On Wednesday night of last week, the waggon shop of Mr. Thomas Wright of this city, was discovered to be on fire. The engines were out at once, and the fire soon got under. The damage to the building was but small, the injury to stock, however, was considerable.—There was an insurance on the building.

It was supposed the fire was the work of an incendiary.—Advertiser.

DAILY SENTINEL.

The American Minister in Ireland. The first great fruit of Mr. Abbott Lawrence's Irish tour (we hope there will be others of still greater importance) is already beginning to namiest itself. He was everywhere greated as a nessatiger of ghal tidings, almost as the ambossador of fratemity with the great Republic. The people welcomed him with housest sincerity and gusling hearts. They left he represented their parted blood, and they not him with all the reverent affection such a feeling cannot fail to awake. His presence seemed to law the spirit of animasity and religious accretity lately so rife in that distracted land; and Protestant and Catholic, peasant and peer, not alone embased him cordicity, but intimated their ardent wish that the two countries should be included in the brotherly pact.

Mr. Lawrence seems to have interpreted those

should be included in the brotherly pact.

Mr. Lawrence seems to have interpreted those feelings correctly, and given at the same time true expression to the sentiments of his own countrymen. He reciprocated the kindness of the Irish, and did full justice to the character of their brethern here. He held, too, the language of hope, and said significantly be fell himself 700 or 800 miles mane home.

said significantly he felt himself 700 or eth) miles mare home.

His speech on Galway and progress generally had instant and marvekaus effect on the optics of English Statists. Forthwith, things that were outre, and smalled this astingly, all at once became fair and odorous. The Bay of Galway smoothed exceedingly, and the locality of that town almost acquired an English interest not altogether unworthy of consideration. The Morning Chronicle discovered that the proposition to make Galway the Mail-Packet Station for Ireland, England and Europe, which had been susered at through every mood and tense of ribaldry, "has been havily regarded as decidably in the negative."

The Chronicle with the utmost simplicity, avows that a new light has looken in upon it, and almost every reason advanced by the Royal Commissioners who vetoed down Galway, has lost its logical agency in the estimation.

The schooner Home, Capt, Jeffords, arrived yesterlay afternoon, having on board Capt. Napsier and a portion of the crew of the fine brig Chicago, which left here the day previous for Chicago. From Capt. N., we learn that a squall struck his ressel about 1 o'clock yestesday morning when off Long Po.nt, about 90 miles from this port, which completely capsized her in less than five minutes, giving her crew no time to clear away her yawl or make any efforts to right her. The captain and one or two others succeeded in getting on her keel, where by knotting their clothing together for a line, they harded up the remainder of the crew, with the exception of John Tuloch, lat mate; Win. L. Reed, 2nd mate, and John Carver, seaman, who had become so much exhausted in clinging to the vessel, that when they let go their hold to get within reach of the line and thus reach the vessel's keel, they sunk almost immediately and were seen no more. The first mate resided in Cleveland, and leaves a young wife, to whom he had been married but a short time. The second mate was also married a few days since, and leaves his wife at Chicago, where they resided. Carver was also from Chicago.—The Chicago is owned by Thomas Dyer, of Chicago, and was insured for \$6000, equally in the Buffalo Mutual and North-Western Companies.

About half past two o'clock this morning a fire broke out in the back part of Globs Hotel, on Main street opposite the American Hotel. Before the town could be roused and the engines put to work, the whole of that building was in flames. The fire extended in each direction up and down the street, among the old wooden tenements, and before it could be subthed the following buildings were unitarly consumed.

Siburman & Langley's fancy store: Eberhart's tailor shop: a cigar stone occupied by Mr. Lampe; and the clothing store or Edward Soloman.

Brenezer's fin shop and dwelling house: Brendel's clothing store; and the buildings were shift in the small, as they are not of little value.

The stocks of each sufferer were fully covered by insurance. The loss on the buildings will be small, as they are not of little value.

The contents of several other buildings were somewhat damaged by removal.

It is believed that from eight to ten thousand dollars will cover all loss.

The night was so calm that the progress of the flames was very slow. The Americane House was at one time in a critical condition, and also Newhall block, but no damage was sustained by either.

ALGONOUS AND THE GALE.—The schooner Al-ALLONQUIS AND THE GALE.—The schooner Algonquin, Capt. John McKay, arrived on the 6th inst., with some forty of the shipwre-ked passengers and crew of the Monticello, and all the articles saved from the Wieck. Soon after leaving Copper Harbor, a heavy gule set in from the W. N. W., which fairly made the log house shake that we happened to be in at that place. Capt. McKay run in under Point Keweesiaw for lee, but the wind was too much for her anchors, and he was obliged to beat about under the const for twelve hours, during which time he never left the helm. The rates charged by this company, though key, are sheed upon the actual results of insaring for the peartmenty years, and are found to be sufficient, with prudent management, to pay all losses and expense without ever restoring to the premium notes; thus the rates on a coosid developes and farm property, are a premium not of one per cent, and a cash premium of fifty cent on each 1700 for the years.

In publishing our safe, chasp, and popular plan of insurance, we deem it a duty to curselves and the public to state a few crising facts with the Washington and Monte comercial. geometry—
The Washington County Mutual commences and reportive Washington County Mutual commenced in 1966, by
Collecting thirty cents on \$100; in 1848 they first discovered that this was insufficient to pay losses, and relies to 35
cents, and now are collecting 30 cents on each \$100; the
result of which is, by their report, Jan. 1, 1850, \$5000 in
the tressur, y, and 69 inflien at risk, on which they will proleatly lose two hundred thousand, making their actual debt
30 thousand.

THE undersigned now offerto the public a new article of Bedganda, cuitled "HINKLET'S PATENT SUSPENSON"
BED BOTTOM AND FASTERING." which possesses, as tiny beliave, a decided superiorit; over every other kind now in use.

The advantages of this Patent are, tirst, the classifity of its spring, the simplicity and durabular of its structure, and what is of fir greater importance, these Bedesade are "BUG FROOF. For these reason, it is bettered to be not only the bort, but the cheapest Bediesed that can be used in strumerating its advantages, the proprietors or by re-peat the testional of competent persons in this nity, and classifier, who have had the best opportunity of judging of its nexture.

FACTS WILL ATWAYS SHOW! ONE HUNDRED THOUSAND
